

My Coffee Profile App User Manual

Your guide to discovering the perfect cup with AI-powered matching

Getting Started

1

Take the Coffee Quiz

Answer questions about your taste preferences, brewing methods, and coffee experiences. Our 4-Wave Algorithm uses this to build your unique taste profile.

2

Get Your Profile

Receive your personalized coffee profile with detailed characteristics and preference scores across multiple dimensions.

3

Discover Matches

Browse AI-powered coffee recommendations with match percentages and detailed explanations of why each coffee suits your taste.

How the 4-Wave Algorithm Works

Wave 1: Initial Pattern Recognition

Analyzes your basic taste preferences and brewing method preferences to establish your foundational coffee profile.

Wave 2: Contextual Analysis

Considers situational factors like time of day, mood, and occasion to refine recommendations contextually.

Wave 3: Content Evaluation

Deep analysis of coffee characteristics including origin, processing method, roast level, and flavor notes.

Wave 4: Advanced Processing

Generates personalized match scores and confidence ratings for precise recommendations.

Features Guide

Match Scores

Each coffee recommendation includes a percentage match score (65%+ threshold) showing compatibility with your taste profile.

Confidence Ratings

Our algorithm provides confidence levels for each recommendation, helping you prioritize which coffees to try first.

Detailed Explanations

Understand why each coffee was recommended with detailed breakdowns of matching characteristics.

Learning System

The more you use the app and provide feedback, the more accurate your recommendations become.

Tips & Best Practices

Be Honest in Your Responses

The algorithm works best when you provide authentic answers about your preferences, even if they seem unusual.

Try High-Match Recommendations

Start with coffees that have 85%+ match scores for the best initial experience.

Provide Feedback

Rate the coffees you try to help the algorithm learn and improve your future recommendations.

Update Your Profile

As your taste evolves, retake the quiz to keep your recommendations fresh and accurate.

Troubleshooting

Q: My recommendations don't seem accurate

A: Try retaking the quiz with more detailed responses, or provide feedback on previous recommendations to improve accuracy.

Q: I don't see many high-match coffees

A: This might indicate a unique taste profile. Try expanding your search criteria or exploring medium-match options.

Q: How often should I retake the quiz?

A: We recommend retaking the quiz every 3-6 months or whenever your coffee preferences significantly change.
